

Do I Need to Uninstall to Update my Software?

Online URL: <http://www.pctools.com/kb/article/do-i-need-to-uninstall-to-update-my-software-273.html>

In the vast majority of cases you can simply over install the update software by downloading it from the [PC Tools website](#) rather than uninstalling the software and the reinstalling the new updated software.

If you are experiencing difficulties with over installing please click here for instructions on uninstalling.

How to Install and Register
